

Multi Gun Unit 3000

Multi Consumer System

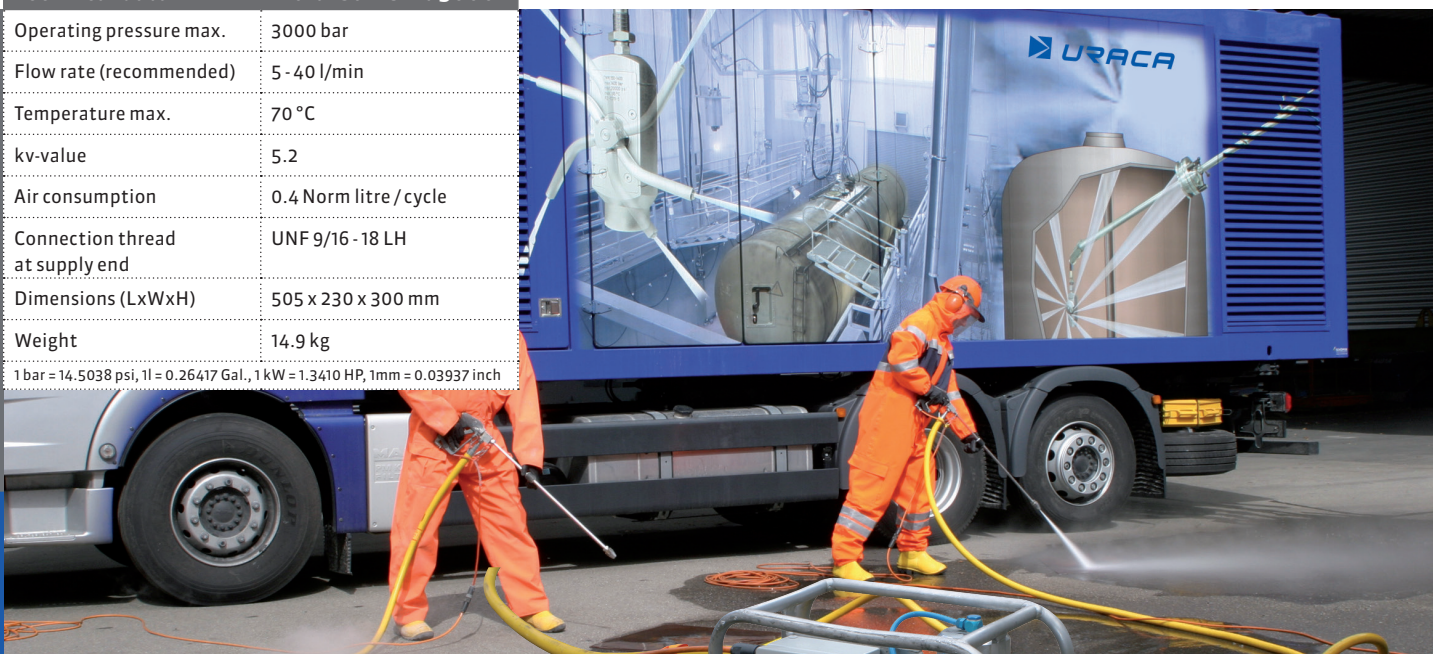

Power share to your advantage.

In order to take full advantage of the high pump performance, multiple tools, e.g. spray lances, floor cleaners, can be connected to the pump unit simultaneously. URACA's new Multi Gun Unit 3000 is a flexible multiple consumer system. Existing pump units can also be retrofitted. Various consumers can be adapted quickly and individually to each requirement.

Advantages at a glance

- Up to 4 consumers
- Also various consumers possible
- Without awkward pressure fluctuations
- Easy handling
- Optimal life times
- Suitable for all pump types
- Robust - designed for outdoor applications
- Efficient use of the existing systems

Technical data	Multi Gun Unit 3000
Operating pressure max.	3000 bar
Flow rate (recommended)	5 - 40 l/min
Temperature max.	70 °C
kv-value	5.2
Air consumption	0.4 Norm litre / cycle
Connection thread at supply end	UNF 9/16 - 18 LH
Dimensions (LxWxH)	505 x 230 x 300 mm
Weight	14.9 kg
<small>1 bar = 14,5038 psi, 1l = 0.26417 Gal., 1kW = 1.3410 HP, 1mm = 0.03937 inch</small>
